

Mosquito Repellent Standing Order Prescription Template

Medicaid, CHIP, and Healthy Texas Women

HHSC issued the *Texas Medicaid Standing Order for Mosquito Repellent* for use by people enrolled in Medicaid, CHIP and HTW. This order serves as a prescription and allows pharmacists to dispense mosquito repellent under the terms of the order. Pharmacies are encouraged to use this order instead of contacting the person's healthcare providers for individual prescriptions for mosquito repellent.

Pharmacy staff should request a copy of the standing order by emailing vdp-formulary@hhsc.state.tx.us.

This template is used only in the processing of claims under the *Texas Medicaid Standing Order for Mosquito Repellent*. Any unauthorized use of the above prescriber information shall be referred to the HHS Inspector General as potential fraud.
